

# *Georgia Fullard*

## **BIO**

I am a hard working, energetic person, able to work independently, or as part of a team. I believe myself to be responsible and reliable and have displayed these skills through my course and work. I am currently seeking employment within the creative industries specifically within a photography based studio.

## **EXPERIENCE**

During my course I have learnt the traditional dark room technique on how to develop negatives from a filmstrip. I have also learnt how to load and unload film cameras without ruining the negatives. I have gained experience in setting up the lights for high key and low key shoots and learnt how to use different functions on DSLR and SLR cameras.
